*Euporos- from Greek: **εὔπορος** - rich in natural resources, ingenious, inventive, wealthy.*

INTRODUCTION

Euporos is one of the **Swiss references** in the **purchase and sale of precious metals**.

Such a sustainable success requires a **strong organization, modern products and services, committed employees, and reliable partners** - and above all, the **trust of our clients**.

Our strengths that distinguish us are the **reliability** of our company, the **discretion** of our transactions, the **speed** of our deliveries, and the **perfect quality** of our products. With offices in Geneva and Dubai, we are able to provide quality services to our clients worldwide.

The background of the entire image is a close-up, high-angle shot of several gold bars. The bars are stacked and overlapping, creating a sense of depth and texture. The gold has a warm, yellowish-gold hue. Embossed on the bars are various markings: '1 kg', 'gold', and '999,9' are visible on the top bar. A smaller bar in the middle has a logo with 'CH' and the text 'ESSAYEUR FONDEUR'. Another bar in the foreground has 'Valcambi suisse' embossed on it. The lighting is dramatic, highlighting the metallic sheen and the raised characters.

Our team can guide you through all the stages of your investment, whether you are interested in long-term investments to preserve your assets or short-term investments to protect you against inflation during times of crisis. With precious metals, there are various investment strategies available to suit your needs.

1. WHY INVEST IN GOLD?

Gold is a reliable and cost-effective investment option that offers several benefits.

While short-term fluctuations in gold prices are minimal, the long-term trend is always upward. For example, at the birth of the Euro, gold was valued at 13,000€ per kilo, but in September 2022, it was worth 56,000€ per kilo. This indicates that the **Euro has lost 75% of its value in just 20 years.**

Gold is an excellent investment option for investors who wish to **diversify their assets** and have access to **liquid funds**. It offers **safety** by protecting investors from the **risk of inflation** and **price losses**. The more crucial it is for investors to have a risk-free portfolio, the more they are recommended to invest in gold. Euporos suggests that 10% to 15% of one's portfolio should be allocated to gold.

Gold prices are expected to rise as the supply (mining production and inventory reduction from central banks) decreases, while demand from investors is increasing. Strong demographic growth, especially in developing countries, has created a rising need for gold.

Gold mining has been declining steadily for several years due to the depletion of many mines and various environmental factors. Exploring new mines is a time-consuming and expensive process, taking anywhere from two to five years for infrastructure construction after discovering a deposit.

In recent years, several developing countries such as China, India, Russia, Turkey and Thailand, have added gold **to their central bank vaults** due to increased distrust in the dollar, the Euro, and other fiat currencies.

1. WHY INVEST IN SILVER?

Silver: *An Investment for the Future*

Investors often consider silver as a valuable investment for several reasons. Although silver is currently available for wealth preservation, its price is expected to rise in the near future. Similar to gold, the demand for silver is on the rise, but its reserves are declining at a significant rate.

Silver is a crucial raw material in numerous industries, such as computer, automotive, medical, solar panels, and more. It is the best metal conductor of electricity, has a lustrous appearance, and is malleable, making it a popular choice for the jewelry industry.

Silver is in high demand. According to the Silver Institute's November 17, 2021 report, silver demand in 2021 reached 1.29 billion ounces. Production did not reach the full demand, resulting in a shortfall of 7 million ounces.

As the demand for silver continues to grow, the stocks will inevitably deplete, and silver will regain its status as a store of value, leading to an increase in its price. Experts predict that a significant shift in the price of silver is expected in the next few years.

High-Quality Products

We source our products from renowned refineries, such as VALCAMBI, UMICORE, ARGOR HERAUS, and METALOR, whose products undergo regular state controls.

All the bars we provide to our customers are **LBMA-certified**, meeting the **highest quality standards** set by the London Bullion Market Association. This certification ensures that our customers receive the **best quality guarantee** and enables them to resell their precious metals anywhere in the world.

To further enhance the authenticity of our products, we also offer **certificates of authenticity** for coins and ingots upon request. These certificates contain essential information about the product, including its weight, brand, purity, and ingot number, providing complete traceability and ensuring the authenticity of the metal.

Buying back precious metals

At Euporos, we buy back ingots, coins, old jewelry and silverware at the **best possible** prices. We test the purity of the products using an X-ray spectrometer in our facilities.

Good to know:

Euporos offers favorable rates for buying back precious metals that have been acquired through the company.

*We buy back your
precious metals in
any form.*

A photograph of a vaulted interior, likely a gold storage facility. The view is through a large, circular opening in a thick metal wall. On the right side, there are several rows of metal lockers or drawers, each with a small handle. The floor is made of metal grating. The lighting is dramatic, with strong shadows and highlights. A red banner is overlaid on the bottom right of the image.

3. SAFE STORAGE IN SWITZERLAND

You can entrust us with storage in Switzerland.

This service offers an excellent value for money :

For a reasonable cost, you can ensure maximum security for your precious metals.

You can store your metals with us and enjoy peace of mind knowing they are fully insured against any unforeseen events.

Maximum Security

- Political stability: Switzerland is a **politically and socially stable** country that is favorable to investors.
- Vaulted security and armed guarding: Customer assets are stored **outside the banking system**, in a vault, within a high-security building.
- 100% reserve: There is **no fractional reserve**. All orders are physically stored in their entirety with a box number, pallet number, storage location, and barcode.
- Individual allocation of ingots: The serial number of each ingot purchased is allocated individually to the owner. Each of our depositors has **individually allocated ingots**, which are not part of the Euporos balance sheet. This means that even if the company goes bankrupt, the ingots remain the property of the depositor.

For a worry-free experience, our depositors can collect their ingots, have them shipped to their address, or sell them back to us at any time.

Silver Tower, Jumeirah Lake Towers, Dubai • +971 55 547 7432

4. RARE PRECIOUS METALS STORAGE IN SWITZERLAND

Several metals are available in the form of VAT-free ingots: Silver, Platinum, Rhodium and Palladium.

In contrast to other countries as United Arab Emirates, these metals are subject to value-added tax (VAT) in Switzerland. However, Euporos SA provides a solution by offering **storage in a Free Zone** that is exempt from VAT.

This warehouse is on **Swiss territory**, but the goods are confined to a bonded area. It is only when they leave this area that customs duties and value-added tax must be paid.

As long as the ingots remain in the warehouse, they are completely **exempt from VAT** and can be stored there indefinitely.

Of course, you also benefit from the same specific allocation: each ingot with its specific serial number is personally allocated to you, with a detailed storage certificate.

5. JUNI'OR ACCOUNT

*Investing in a child's future requires a **long-term plan** that can withstand inflation and increase in value over time.*

The Juni'OR account is a **precious metal account** designed for minors. Parents or other trusted individuals, such as godparents or grandparents, can open an account for one or more children, with the adult serving as the manager and the child as the holder.

As a welcome bonus, a voucher of **100 USD** will be credited to each new Juni'OR account, and there are no fees for creating or managing the account.

The transfer of assets is **simple** and **discreet**, and can be done through our website at www.euporos.com. With a single password, parents or third parties can manage both their own accounts and the Juni'OR accounts of their children.

Investments can be made at any pace, **with no minimum purchase** required, and a range of **gold and silver coins and bars available** for selection. However, the precious metals must remain in the Juni'OR account until the child reaches the age of majority, safeguarding both the child and their family's savings efforts. Once the child reaches 18 years of age, they are free to obtain their assets.

The metals purchased through the Juni'OR account are **physically stored** in a high-security vault outside of the banking system in **Switzerland**. The metals are **100% insured** against theft and any natural damage, and each bar is allocated by name, with the unique serial number provided to the account holder on an official certificate.

6. WHY CHOOSE EUPOROS ?

*With over **12 years of experience** and **4 storage centers** located in Switzerland, Euporos has earned the trust of its numerous customers.*

The company is based in Switzerland, which benefits from its financial stability, attractive taxation, and expertise in asset management, as well as being home to approximately 70% of the world's precious metals refining. Switzerland has also been ranked among the **most politically stable** and least risky countries in the world by various studies and indexes, with its army having not engaged in battle since 1847.

In addition to its storage centers in Switzerland, Euporos has also established an **office in Dubai**, one of the **world's leading financial and trading hubs**. Located in the Dubai Multi Commodities Centre (DMCC), Euporos' Dubai office

offers clients in the Middle East and Asia **convenient access** to its precious metals products and services.

Euporos' Dubai office is staffed by a team of **experienced professionals** who are knowledgeable about the local market and regulations. At Euporos, competitive prices, discretion, and ease of delivery are of the utmost importance. You will be assigned an **account manager** who will serve as your single point of contact, and who will be familiar with your project. He will assist clients with their precious metals investments, including account opening, product selection, and logistics.

Whether you choose to store your precious metals in Switzerland or in Dubai, Euporos is committed to providing you with competitive prices, discretion, and excellent customer service.

7. OUR PAYMENT METHODS

Euporos understands the importance of offering flexible payment methods to its customers to facilitate their investments. Here are the four payment methods available:

- **Bank transfer**
- **Credit notes:** Euporos also offers the option for customers to pay a deposit, which will be registered on their customer account. This credit can then be used to pay for future purchases or storage fees.
- **Cash:** For customers who prefer to pay in cash, Euporos accepts payments in Emirati Dirhams, US Dollars, Swiss francs and Euros. However, it is important to note that in accordance with the law, customers may be required to provide additional documents.
- **Bank card and electronic payments:** In addition to traditional payment methods, Euporos also accepts bank card payments and modern electronic payment methods.
The currencies accepted are Emirati Dirhams (AED), US Dollars (USD), Swiss Francs (CHF), Euros.

8. HOW TO ORDER?

To place an order with Euporos, please follow these simple steps:

1. Create a customer account: You must have a secure customer account to place an order. You can register for free on our website at www.euporos.com.

2. Contact us: You can place an order through your customer account, or by calling us at +971 55 547 74 32 or emailing us at contact@euporos.ch.

3. Invoice: Your invoice will be sent directly to your customer account.

4. Payment: Payment is required within 24 hours of placing your order. We offer several payment options including bank transfer, credit notes, cash, credit card or other means of payment.

5. Receiving your order: You can choose between several options for receiving your order, including shipment by a carrier, storage of your investment in Switzerland outside the banking system, or collection of your purchase at our offices by appointment.
